20.0138	Advanced Health Science*	.5	3	⇒	HLTH 1020	Foundations of Nutrition	3
Total Pathway Credits			6	⇒	Total Major Course Credits Required		52
TOTAL Potential(college) Credits Earned in High School			19		TOTAL Credits Required for Major		72

Based on an articulation agreement between SLCC and University of Utah, SLCC courses marked by the # sign also count toward a bachelors degree at the U or U (17 hours of General Education courses plus 4 hours of major courses). This leaves an additional 57 hours to achieve a bachelor's degree as a Registered Nurse, BSN at the University of Utah (if student passes Nursing Aptitude Assessment Exam which is worth 30 hours).

Note: + Not concurrent enrollment but approved Nursing HS students may take as SLCC classes

Note: Recommend HS students take MA1100 Medical Terminology (51.1315) (2 credits)

Note: New SLCC cohorts begin in Fall and Spring

Note:

Interested Nursing students must first complete the SLCC Nursing Prerequisites. Upon completion of these prerequisites, students may make application for acceptance into the SLCC Nursing program. When accepted, students are placed on an acceptance list. Because of limited space and the number of interested students, there will be a waiting period between the time of acceptance and actually entering the program.

During the waiting period, it is recommended the student complete the required support courses listed above. The student might consider achieving the Certified Nurse Assistant (CNA) certificate (if not taken in high school, see SLCC Skills Center). Often, students work during the waiting period, with the greatest advantage being employment in a health-related position.

Note: This is a regional agreement. Some classes and some concurrent enrollment agreements may not be available in your particular high school. See your individual school for specific program offering. **Note: *= concurrent; **= distant**
